### ACADEMIC PROJECTS

- ❖ **Heart Disease Prediction | Data Analysis in R**  
The Heart Disease Prediction project acts as your personal health advisor, offering insights into your heart health based on your medical data. It's like having a knowledgeable doctor who assesses your risk factors and provides guidance on maintaining a healthy lifestyle.
- ❖ **.Potion Explosion – Game | Operating System**  
The Potion Explosion game invites you to step into the enchanting world of potion-making. It's like immersing yourself in a whimsical adventure where you become the master alchemist where you compete with others to brew the most potent potions and claim the title of ultimate potion master.
- ❖ **Library Management System | Object-Oriented Programming**  
Library Management System is a system in which digital librarian keeps track of every book in the library. This system makes it easy to find books, check them out, and return them.
- ❖ **Notepad Application | Data Structures**  
The Notepad Application is a handy notebook in your pocket where you can quickly jot down ideas, make lists, or sketch out plans.

### POSITION OF RESPONSIBILITY

- ❖ **President | Islamic Society, Punjab College**  
September 2019 – March 2021

Served as the President of the Islamic Society, fostering community engagement and organizing various events to promote cultural awareness and religious education among students.

❖ **Vice President | Go Green Club, Punjab College**

**November 2020 – March 2021**

Also served as the Vice President of the Go Green Club, leading initiatives to raise environmental awareness and promote sustainable practices within the college community.
